

CMS/DMS Integration Certification

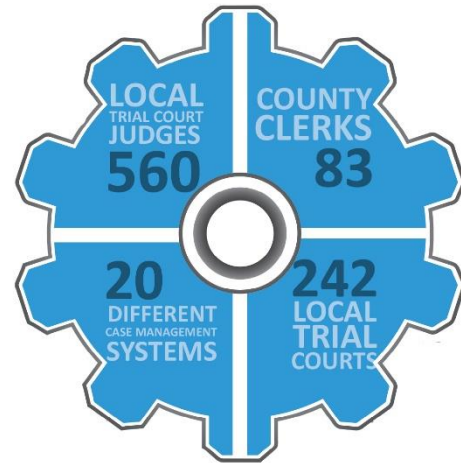

INTRODUCTION

- **Ed Zobeck**
Chief Administrative Officer
Michican SCAO
zobecke@courts.mi.gov
- **Mary Roush**
MiFile Project Manager
Michican SCAO
roushm@courts.mi.gov
- **Scott Bade**
President
ImageSoft, Inc
sbade@imagesoftinc.com

MiFILE OVERVIEW

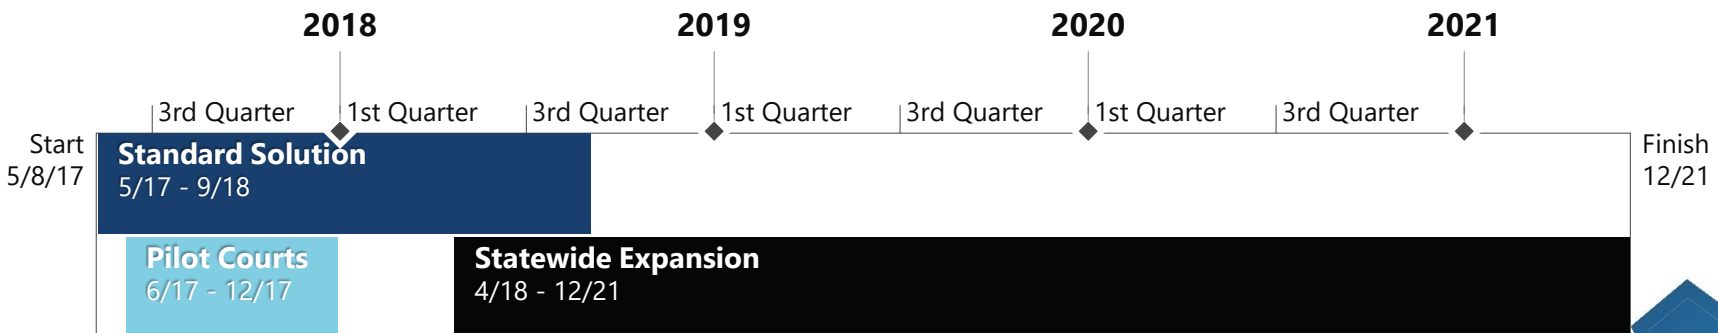

- Statewide e-Filing for all Trial Courts (Circuit, District & Probate)
- Optional Cloud DMS (OnBase)
- All court on same e-filing platform
- Eliminates unpopular “Convenience Fees”

PROJECT OVERVIEW - TIMELINE

Three distinct phases:

- 1. Pilot Courts:** Implement pilot courts
- 2. Standard Solution:** Define and build
- 3. Statewide Expansion:** Implement all other courts

INTEGRATION CERTIFICATION

- Benefits:
 - Better filer experience
 - Court efficiency
 - Data accuracy and consistency
 - Ongoing updates
 - Reduced CMS/DMS vendor complexity
- Technical Framework for Developers
 - Multiple Interface Options
- Testing / Certification Toolkit

INTERFACES

Item	Name	From	To	Description
1	CMS Case Data*	CMS	TF / DMS	Data about cases that is required by TrueFiling for e-filing, and within the OnBase Cloud DMS for indexing and workflow.
2	Court Generated Documents	CMS / DMS	TF / DMS	The purpose of this interface is to allow processing of documents that are created by the court that need to be filed or served. This includes Orders, Notices, Probation Orders, etc.
3	ECF Court Record	TF	CMS	This is an ECF defined transaction. This event occurs after a filing is accepted in the Filing Review interface. Data is typically pushed to the CMS to record an event and documents may be pushed to the DMS.
4	ECF Docketing Complete	CMS	TF	This is an ECF defined transaction. Typically this follows the ECF Court Record transaction and is used to notify TF of the completion of the update to the register of actions in the CMS.

RESOURCES

- MiFILE Integration Guide
- MiFILE State Webpage: courts.mi.gov/efiling
- Integration Webpage: mifile.info/integration/
- ImageSoft MiFILE Integration Tech Lead:
Gabe Russo
Solution Architect
grusso@imagesoftinc.com

NEXT STEPS

- ImageSoft / SCAO
 - Schedule meetings with CMS/DMS vendors/developers
- Courts:
 - Help us work with your vendor (if applicable)
 - Volunteer to be a leader on integration
 - Volunteer to participate in workgroup
 - Make sure your survey is complete
- CMS/DMS Technical Staff:
 - Visit <http://www.mifile.info/integration/> and:
 - Register for the integration mailing list
 - Complete the Certification Application
 - Review Integration Guide, and define approach

THANK YOU!
